(54) Title: COMPUTERIZED MONEY TRANSFER SYSTEM

(57) Abstract

A system for electronically transferring money from a shopper's account located in a Money Deposit and Transfer Institution (MDTI) to a designated account belonging to a vendor, said system comprising: a money designator which sets aside a specific sum of money at the MDTI responsive to a request by the shopper to pay for purchases from a vendor; a number generator at said MDTI which issues an account number and a first personal identification number (PIN) to said shopper, and a second PIN to the shopper to be supplied to the vendor; a comparator in said MDTI comparing said issued second PIN and the second PIN supplied by the vendor to verify a requested transfer of the specific sum of money to the vendor; and a money transferor transferring the specific sum of money to said vendor responsive to the verification of the second PIN number.

A. CLASSIFICATION OF SUBJECT MATTER

IPC 6 G07F19/00 G06F17/60 G07F7/10

According to International Patent Classification(IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 6 G07F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

"&" document member of the same patent family
